

**INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, AUGUST 24, 2005 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was moderate nationally with 233 fires reported. Nine new large fires were reported, four in the Eastern Great Basin Area, two in the Northwest Area and one each in the Northern Rockies, Alaska, and Western Great Basin Areas. Seven large fires were contained, three in the Northwest Area, two in the Eastern Great Basin Area and one each in the Northern Rockies and Southern Areas. Very high to extreme fire indices were reported in California, Idaho, Montana, Nevada, Oregon and Washington.

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

PROSPECT, Lolo National Forest. A Type 2 Incident Management Team (Carlson) is assigned. This fire is 12 miles south of Superior, MT in timber. Poor access, steep terrain, and heavy fuels continue to hinder containment efforts. The fire continues to creep and smolder in pockets of heavier fuels along with isolated torching.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the El Capitan, Wapiti, Beaverjack, Reynolds Lake and numerous other fires, is 26 miles southwest of Hamilton, MT in timber. This complex, burning on both the Salmon-Challis and Bitterroot National Forests, is being managed to accomplish resource objectives. A campground, two lookouts, work center, and historic ranger station and cabin remain potentially threatened. Structure protection is in place. Magruder Corridor Road is closed to through traffic. Trail closures remain in effect. Creeping, backing and active surface fire with intermittent torching was reported. Four new starts occurred within the complex.

SIGNAL ROCK, Bitterroot National Forest. A Type 2 Incident Management Team (Benes) is assigned. The fire is 17 miles southwest of Philipsburg, MT in timber, burning on both the Bitterroot and Beaverhead/Deerlodge National Forests. Higher humidity and cloud cover decreased fire behavior, with moderate surface fire and occasional single tree torching observed. Burn out operations are planned.

CHINA TEN, Nez Perce National Forest. A transfer of command from a Type 2 Incident Management Team (Thomas) to a Type 1 Incident Management Team (Bennett) is scheduled for today. This fire is 15 miles east of Grangeville, ID in beetle killed lodgepole pine and subalpine fir. The fire is adjacent to a significant Native American cultural area, and is threatening a historical fire lookout. Isolated torching was observed. Area closure remains in effect.

CEDAR, Clearwater National Forest. This fire is 18 miles northwest of Kooskia, ID in timber. Structure protection is in place. The fire is in monitor status. No new information was reported.

DEVIL, Clearwater National Forest. This fire is 13 miles west of Lochsa, ID in timber and brush. No new information was reported.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain, numerous snags and limited access continue to hamper containment efforts. The fire perimeter remains active, with isolated torching and occasional short upslope runs reported.

ROCKIN, Bitterroot National Forest. This fire is 10 miles northwest of Darby, MT in timber. No new information was reported.

CENTER, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 23 miles southeast of Elk City, ID in timber. A crown fire was observed. The fire is being monitored by air.

NORTHWEST AREA INCIDENTS / LARGE FIRES:

BURNT CABIN, Umatilla National Forest. A transfer of command from Johnson's Type 2 Incident Management Team to the local unit is scheduled for tomorrow. This fire is 16 miles southeast of Milton-Freewater, OR in timber. Observed fire behavior was minimal with most activity occurring in small groups of trees and interior islands.

GRANITE COMPLEX, Wallowa-Whitman National Forest. A Wildland Fire Use Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is 30 miles east of Enterprise, OR in timber and grass. Structure protection remains in place for the historic Sheep Creek Ranch Cabin and is being implemented for Cold Springs Cabin and a microwave tower at Low Saddle. An area closure remains in effect. Single tree torching and short crown runs were observed.

WILLS CANYON, Central Oregon District, Oregon Department of Forestry. This fire is nine miles southwest of Spray, OR in brush. No new information was reported.

LITTLE BRIDGE CREEK, Burns District, Bureau of Land Management. This fire is 12 miles east of Frenchglen, OR in grass and brush. Poor access and steep terrain are hampering containment efforts. Minimal fire activity was observed.

FLOOK LAKE, Sheldon-Hart Mountain National Wildlife Refuge Complex. This fire is 46 miles northeast of Lakeview, OR in grass and sagebrush. No new information was reported.

FIR CREEK, Burns District, Bureau of Land Management. This fire is 11 miles east of Frenchglen, OR in sagebrush and grass. Remote structures, campgrounds and wildlife habitat are threatened. Camp evacuations and structure protection measures are in place. The fire is wind driven and exhibited major runs.

FLY, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Goheen) has been ordered. This fire is 20 miles southwest of La Grande, OR in grass, timber and slash. Several private cabins are threatened. Individual crowning, torching and running fire behavior were observed.

WESTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

SHERMAN, Elko Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Muir) has been ordered. This fire is 15 miles north of Elko, NV in grass and sagebrush. Steep terrain and limited access are hampering containment efforts. The community of Ryndon is potentially threatened. Structure protection measures have been initiated. Erratic winds and extreme fire behavior were observed.

VOR-MCCARTY, Nevada Division of Forestry – Northern Region. This fire is seven miles south of Elko, NV in juniper, sage and grass. Structures and historical sites are threatened and protection measures are being implemented. The community of Ten Mile is threatened. Minimal fire behavior was observed.

DISASTER, Winnemucca Field Office, Bureau of Land Management. This fire is 30 miles west of McDermitt, NV in brush. Rangeland and wildlife habitat are threatened. Smoldering fire behavior was observed.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

GOVERNMENT CREEK, Northwest State, Utah Division of Forestry, Fire & State Lands. This fire is eight miles south of Elberta, UT in juniper and grass. Difficult access and steep terrain are impacting containment efforts. Structures are threatened. Extreme rates of spread with torching and spotting was observed.

SOUTH BLACK, Boise District, Bureau of Land Management. This fire is nine miles southeast of Boise, ID in brush. Gusty winds and heavy fuel loading are hampering control efforts.

FIVE SPRING, Northwest State, Utah Division of Forestry, Fire & State Lands. This fire is 20 miles northwest of Evanston, WY in brush and slash. Creeping, smoldering and a short fire run were observed.

FRANK CHURCH, Payette National Forest. A Wildland Fire Use Management Team (Hahnenberg) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root Creek, West Fork/Joe, Missouri Ridge and several other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. Commercial property, residences and historical structures are threatened; structure protection is in place. Significant fire activity with moderate rates of spread was observed on several fires.

ALASKA AREA INCIDENTS / LARGE FIRES:

COLEEN MOUNTAIN, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire is 40 miles northeast of Chalkyitsik, AK in black spruce, hardwoods and grasses. Native allotments and cabins at the historic John Herberts Village, Fishhook Bend and Canyon Village are threatened. Structure protection measures are in place. Burn out operations are being conducted near Canyon Village. Creeping, running and crowning fire behavior was reported.

BEAVER CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire is 45 miles northwest of Fairbanks, AK in black spruce. Private residences remain threatened. Crews used direct attack and make significant progress on portions of the fire. Smoldering and creeping fire behavior with isolated torching was observed.

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. Smoke continues to limit visibility and aerial support. Road hazard mitigation is continuing along Taylor Highway. Most resources will be demobilized today. This will be the last report unless new information is received.

RAY RIVER, Alaska Fire Service, Tanana Zone, Bureau of Land Management. This fire is 35 miles northwest of Livengood, AK in black spruce and feather moss. Commercial property and native allotments remain threatened. No new information was reported. This will be the last report unless new information is received.

GRAYLING CREEK, Alaska Fire Service, Galena Zone, Bureau of Land Management. This fire is 15 miles northwest of Anvik, AK in timber. No new information was reported. This will be the last report unless new information is received.

SQUIRREL CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire started on Fish and Wildlife Service land 25 miles east of Ft. Yukon, AK in timber and grass. Native allotments and a cabin are threatened. No new information was reported. This will be the last report unless new information is received.

TALBIKSOK, Alaska Division of Forestry, Southwest Area Forestry Dispatch. This fire started on Fish and Wildlife Service land 15 miles southeast of Russian Mission, AK in mature white spruce, birch and black spruce. Minimal fire behavior was observed.

TXS - Texas Forest Service

OUTLOOK:

Red Flag Warning: For northeastern Nevada for gusty winds and low relative humidity.

Fire Weather Watch: For northwest Utah deserts for low relative humidity and strong shifting winds.

Weather Discussion: The upper level weather disturbance over the Northern Rockies will begin to move east today. Breezy conditions will move over the Eastern Great Basin, Montana, and Wyoming with drying conditions moving in from the west. Offshore flow will develop along the Pacific Northwest coast for breezy winds and lowering relative humidity. Mainly wet thunderstorms will continue across portions of Montana, Wyoming, and into the Southwest. Alaska will cool down as a weather system moves across the state bringing showers with greatest precipitation across the south.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northern Rockies Cold upper level low over Alberta will produce cloudy skies and wetting rains for the majority of the region. Temperatures will be below normal with rain and a chance of accumulating snow above 6,500 feet.	West of Divide: 65 to 75. East of Divide: 65 to 75. North Dakota: 75 to 85.	West of Divide: 30 to 50%. East of Divide: 40 to 50%. North Dakota: 45 to 55%.	West of Divide: northwest 5 to 15 mph. East of Divide: northwest 5 to 15 mph. North Dakota: south 10 to 15 mph.
Northwest A few coastal low clouds and some clouds over northeast Washington but otherwise mostly sunny.	Generally warmer except northeast Washington. Highs west side 70s and 80s to near 90 southern Oregon. East side highs 70s Washington to 80s southeastern Oregon.	West of Cascades: Drier 50% north to near 20% interior southern Oregon. Eastside: Little change. Mostly 15 to 30% with driest in valleys.	West of Cascades: North or northeast 5 to 10 mph. Eastside: Decreasing. North or northeast 5 to 15 mph.
Northern California Sunny and warm inland, with patchy fog or low clouds near the coast.	90s to near 101 inland valleys, 80s mountains and 60s to 70s near the coast.	7 to 17% east of the Cascade-Sierra crest and 12 to 25% elsewhere inland.	North-northwest to east 4 to 12 mph in the morning hours, becoming mainly southwest to northwest 6 to 15 mph on higher and or exposed terrain during the afternoon/evening hours. Peak gusts east of Cascade/Sierra crest 23 to 30 mph.
Southern California Morning low clouds and fog into the coastal valleys, otherwise mostly sunny.	75 to 90 mountains. 90 to 100 valleys. 90 to 100 upper deserts. 100 to 110 lower deserts.	10 to 25%.	Southeast to southwest 5 to 15 mph.
Alaska Interior Alaska Mostly cloudy with rain in the west and a chance of showers in the east.	50s and low 60s.	Above 40% except 30 to 40% in the east.	South to southwest 10 to 20 mph.
Western Great Basin Partly to mostly sunny with isolated afternoon thunderstorms over the far northeastern and far southern portions of the state.	North valleys: 84 to 96. South valleys: 88 to 108. Mountains: 75 to 92.	North Valleys: 5 to 22% South Valleys: 8 to 18% Mountains: 12 to 22%	Southwest to west 5 to 15 mph. In the northern half of Nevada, afternoon gusts of 25 mph, reaching 35 mph in the northeastern corner of the state.
Eastern Great Basin Idaho, Bridger-Teton: Partly cloudy and cool. Utah: Partly cloudy. Isolated afternoon mountain thunderstorms.	Idaho, Bridger-Teton: 54 to 65 mountains, 65 to 80 valleys. Northern Utah: 66 to 78 mountains, 78 to 91 valleys. Southern Utah, Arizona Strip: 66 to 80 mountains, 80 to 98 valleys.	Idaho, Bridger-Teton: 20 to 36% mountains, 17 to 25% valleys. Northern Utah: 20 to 28% mountains, 10 to 20% valleys. Southern Utah, Arizona Strip: 20 to 35% mountains, 8 to 20% valleys.	Idaho, Bridger-Teton: Northwest to west 10 to 15 mph gusting to 30 mph western portions. Northern Utah: South 15 to 25 mph, becoming northwest 15 to 25 mph. Southern Utah, AZ Strip: Southwest 15 mph.
